13

THE SCORECARD

14

NSA's Scorecard

As per appendix attached

15

CONCLUSION

16

Personal point of view

- National Sports Association differ in the number of events, the age group, the venues, infrastructures and sometimes the season (period/time).
- Whilst the individual sport can and may be evaluated accurately on its rating, comparing the results with other sports may not produce an accurate assessment.

17

Thank You
